

## TYPE B XLOCK FITTING

### FEMALE COUPLER X MALE NPT THREAD

- MATERIAL:** Aluminum, 316 Stainless Steel
- GASKET:** Nitrile
- CAM ARM:** 304 Stainless Steel
- BRANDING:** Rubberworx

Type B fitting is typically threaded into a pipe or manifold that interfaces with a hose assembly, which is frequently connected and disconnected. XLOCK fittings are specially engineered for use with liquids exclusively.

| Size  | Aluminum Part # | 316 Stainless Steel Part # | Max. Width With Cam Arms Closed | Overall Length (L) | Exposed Length (E) | Minimum ID (I) | Max. Width With Cam Arms Extended |
|-------|-----------------|----------------------------|---------------------------------|--------------------|--------------------|----------------|-----------------------------------|
| 1.50" | RBX-B-AL-150-XL | RBX-B-316-150-XL           | 3.83"                           | 2.937"             | 2.000"             | 1.3750"        | 7.967"                            |
